

Sample progress report

Smarty Ears Online · speech, language and literacy activities with data built in

Student	Mia R. (fictional)
Clinician	Jordan Lee, SLP (fictional)
Goal	Mia will say /r/ correctly in words and phrases with 80% accuracy.
Activity	Articulation Flashcards, 5 sessions from Oct 10 to Nov 4, 2026

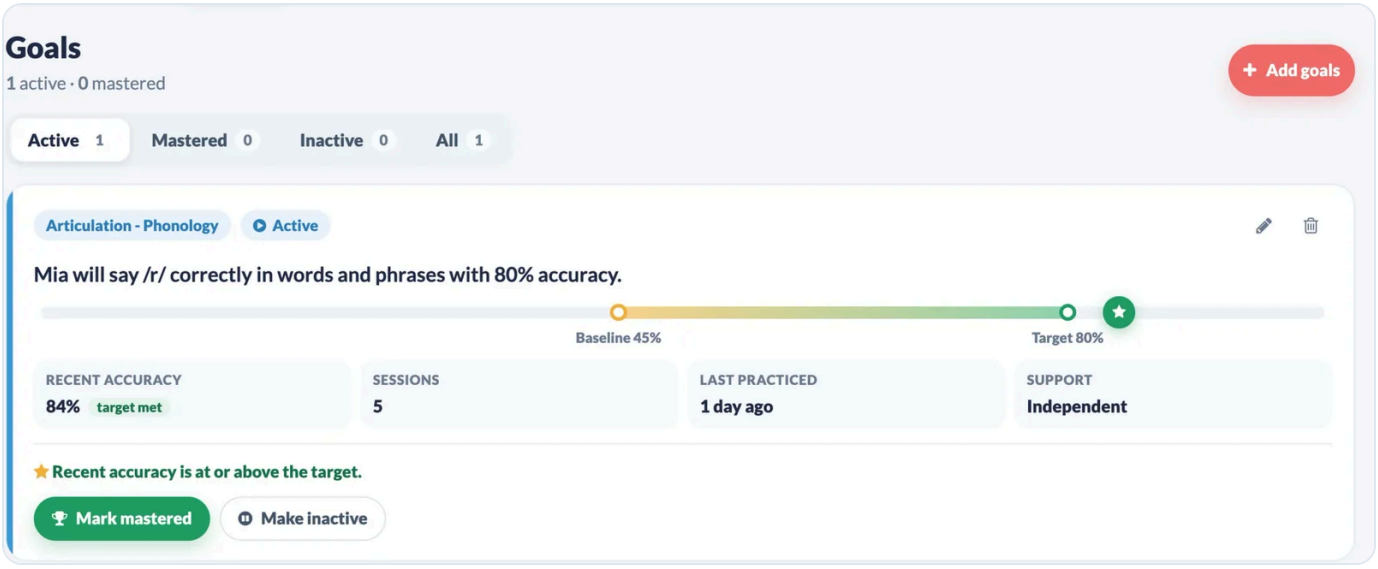
What is inside

1. The goal: baseline, target and recent accuracy
2. One session's report: accuracy, by sound and position
3. The progress-note sentence and every word
4. Ideas to practice at home and the next step
5. Progress over time and every session linked to the goal
6. Sharing: copy, save to notes, PDF or spreadsheet
7. Another activity's own report: Minimal Pairs Academy

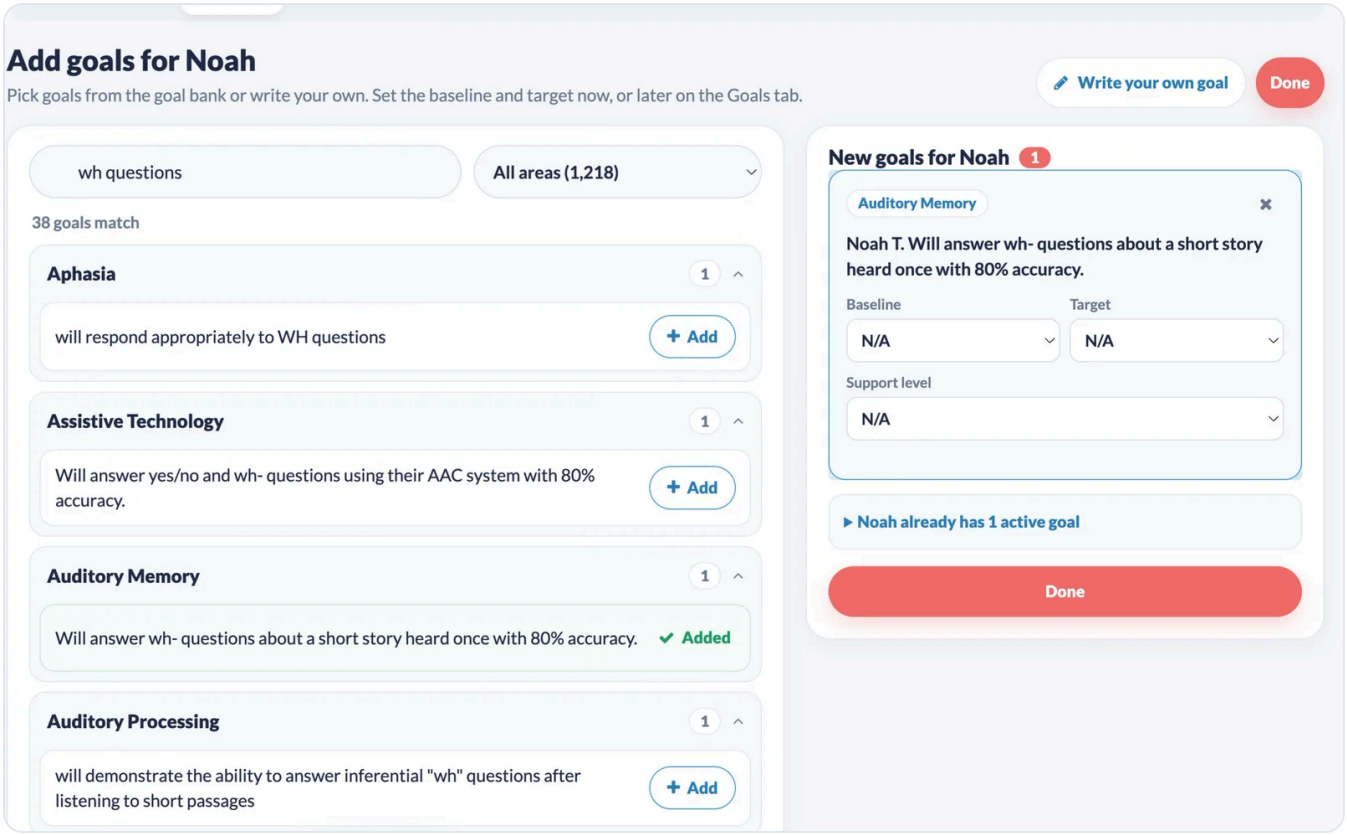
Every page shows real Smarty Ears Online screens with fictional student data. Your own reports come from your students' sessions.

1. The goal

Goals come from the goal bank (1,200+ goals in 40 areas) or are written by you, each with a baseline, a target and a level of support. Sessions linked to the goal count toward it.



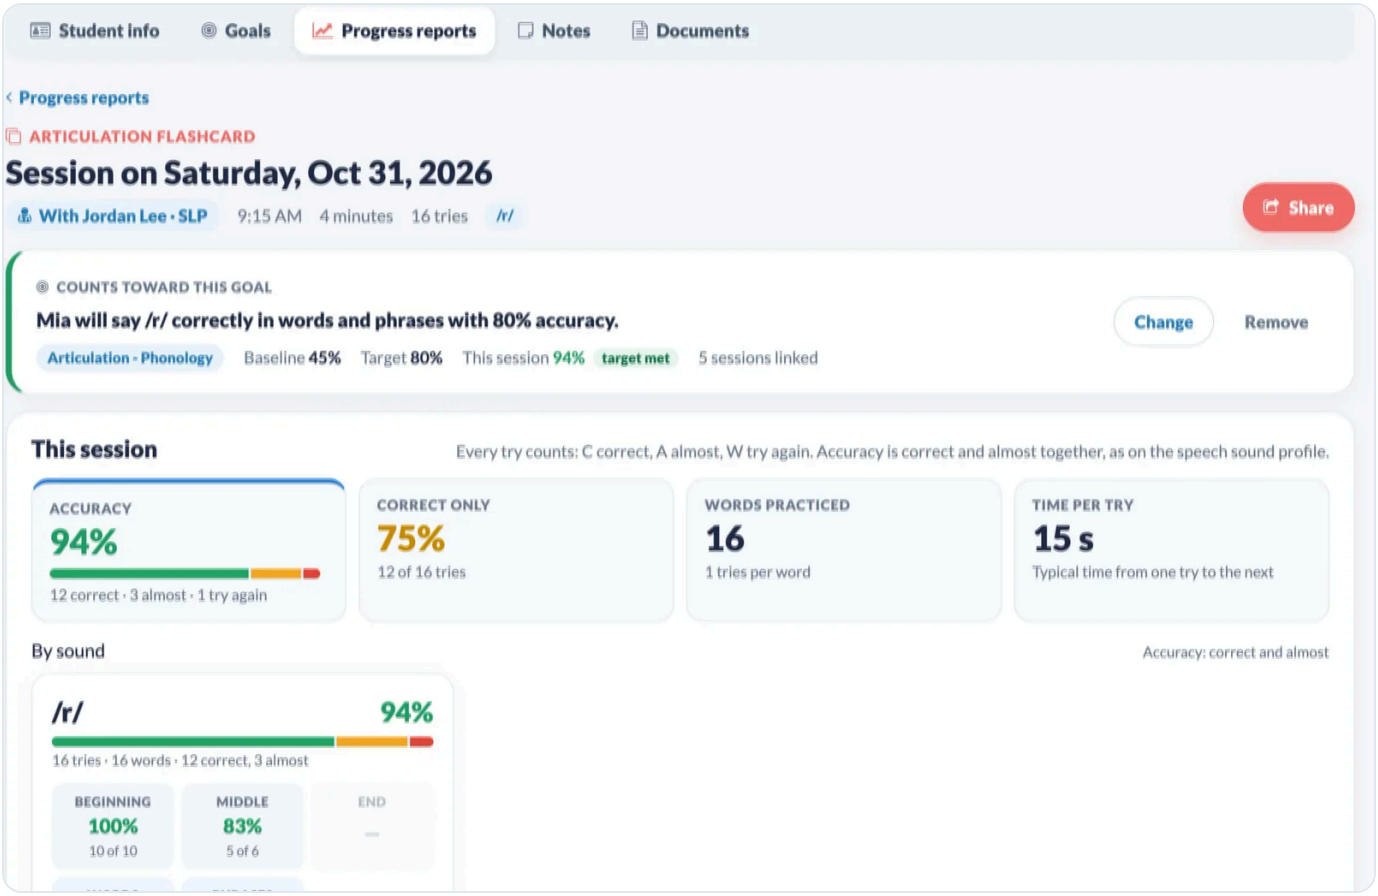
Baseline 45%, target 80%, recent accuracy 84%: target met. Mastery is your decision.



Adding a goal from the bank, with baseline, target and support level.

2. The session report

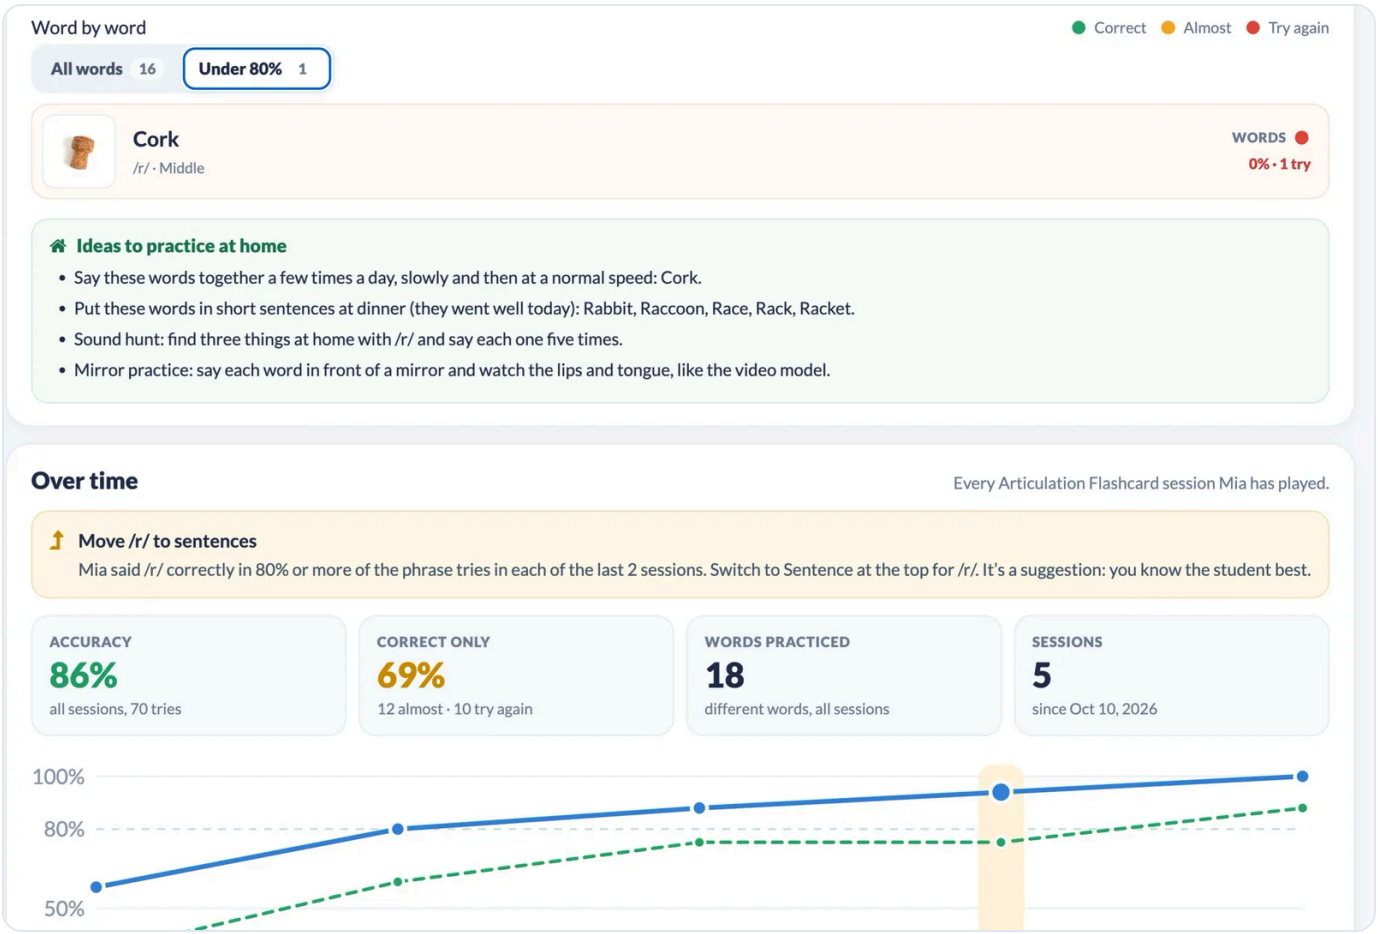
Every try was scored with one tap: C (correct), A (almost) or W (try again). Accuracy counts correct and almost together; correct only is shown next to it.



The goal this session counts toward, accuracy, correct only, words practiced, time per try and accuracy by sound and position.

3. Progress note and every word

A progress-note sentence, ready to copy, and every word with its result.

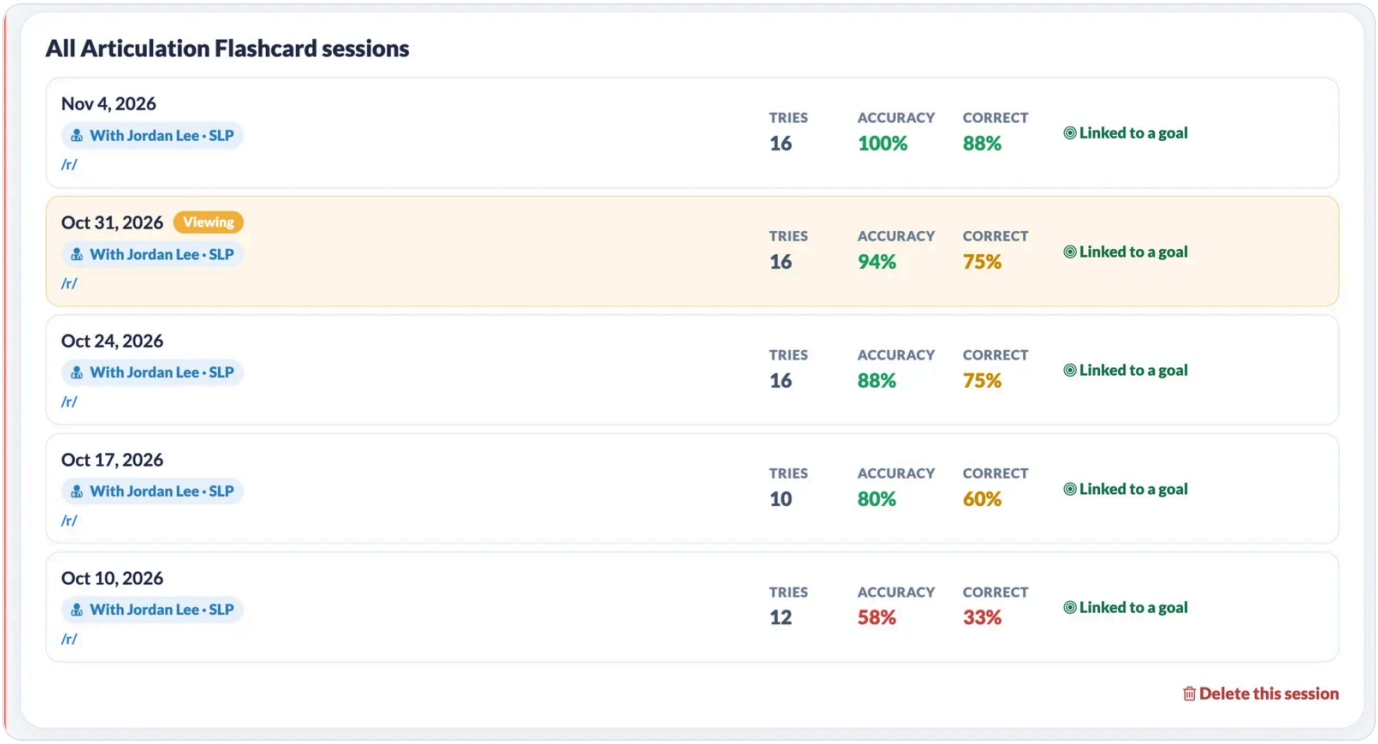


The words under 80%, ideas to practice at home and a suggested next step.

smartyearslearning.com · Try it free for 14 days: smartyearslearning.com/try-it-free/

4. Progress over time

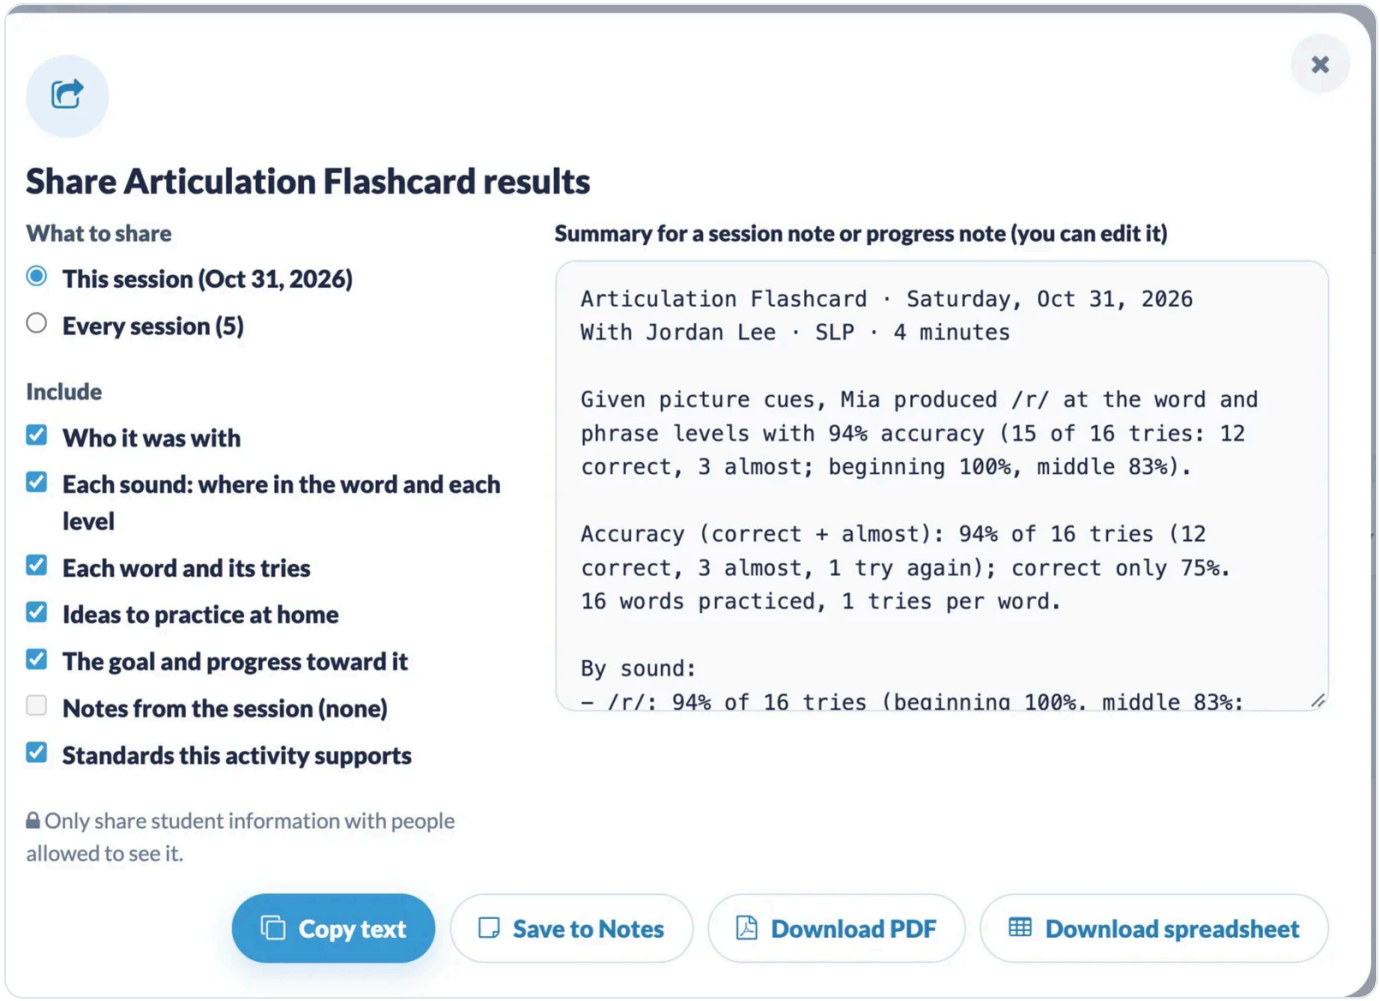
Accuracy (correct + almost) and correct only across five sessions, with the 80% line.



Every session of the activity, each one linked to the goal.

5. Share it

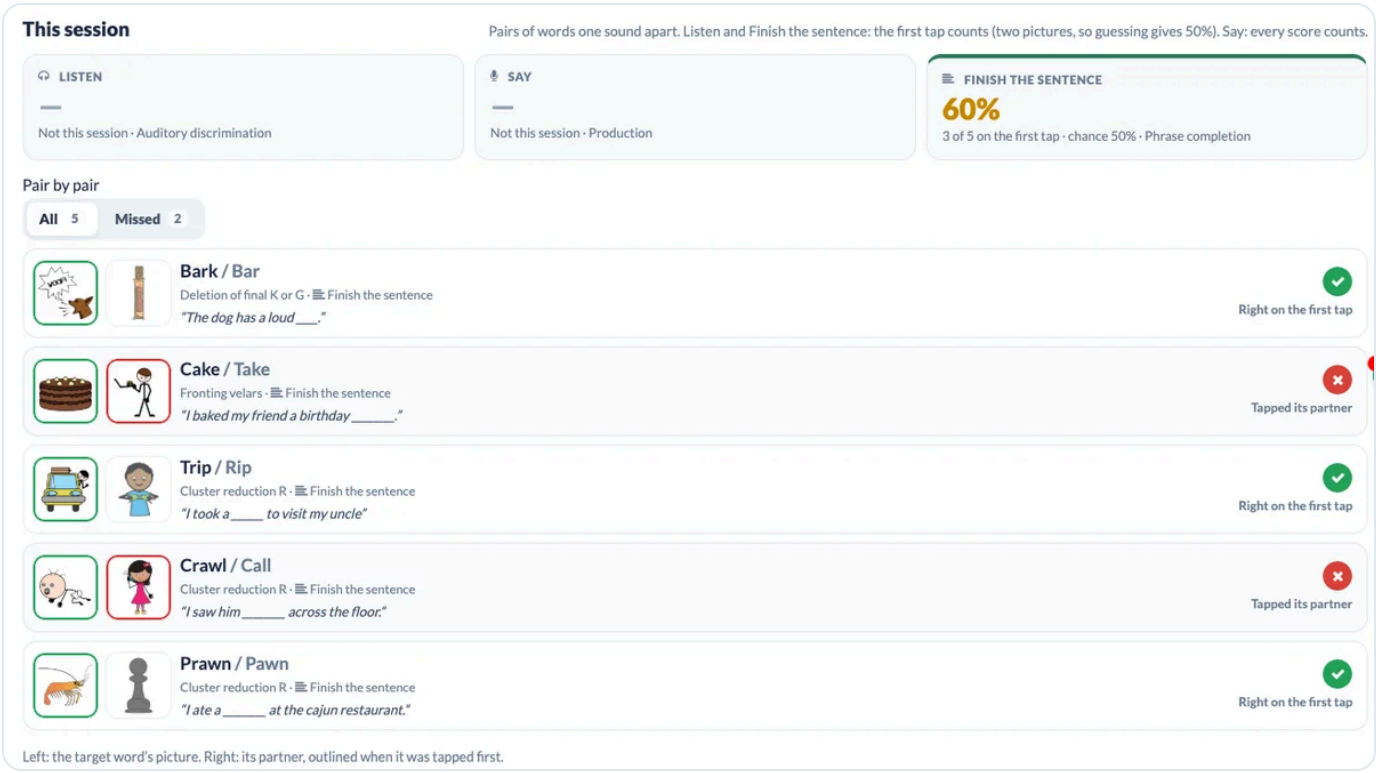
Choose what to include, then copy the summary, save it to the student's notes, download a PDF or download a spreadsheet.



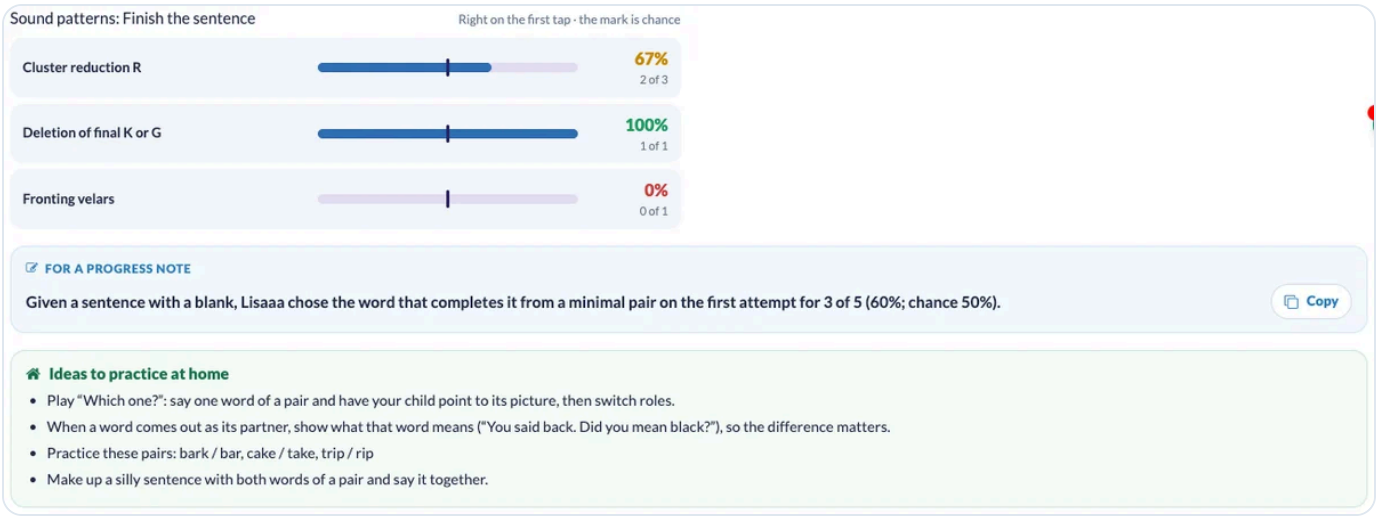
The share window of an activity report.

6. Every activity has its own report

All 104 activities have a report built around how they're played. Here, Minimal Pairs Academy: each pair with both pictures, and accuracy by phonological process with the chance mark.



Pair by pair: the target picture and its partner, outlined when it was tapped first.



Accuracy for each process, a progress-note sentence and ideas for home.
